EASTERN DATES TO AUGUST 30.

EASTERN STATES.

New York Politics.

NEW YORK, August 29.—The movement among Democrats to cut loose from the leaders of Tammany Hall seems to be steadily gaining strength. There is a prospect that in the coming fall election many members of the ring will be thrown overboard. The time of holding the Democratic State Convention has not been yet announced, nor is it definitely known whether two Democratic delegations will be made up from this city. The movement among the German Democrats is serious. It seems to have the sympathy, and will, perhaps, receive the support of the Manhattan Club faction of this city, but the *Tribune* thinks the ties which bind the party to the ring too strong to be easily broken; and further, that even if it should sacrifice Hall, Tweed and Connolly, that would not purify the New York Democracy nor give an honest government.

A newspaper reporter has been informed by Oswold Ottendorfer, editor of the German *Staats Zeitung*, that the Germans will take legal measures in the premises if frauds in the city Treasury are established. Ottendorfer said he had had an interview with Gov. Hoffman in Albany on the 1st of August. Hoffman told him that he had had no communication with the Tammany leaders since the 12th of July. The Governor asked Ottendorfer to see Hall and Connolly and ask them if the charges against them were true or false, and to advise them that if they were false they ought to deny them. Ottendorfer tried to have a conference with these officers, but thinks they avoided him and he has not succeeded.

Miscellaneous Dispatches from New York.

NEW YORK, August 29.—Extensive preparations are being made for the American Institute Fair, announced to open September 7th for the reception and exhibition of goods.

The *Kreuz Zeitung* to day, says of the coming visit of the Emperors of Austria and Germany to Salzburg, that Kaiser Francis Joseph will meet Emperor William in November at some point on the Rhine. The *National Zeitung* says, Count Waldersee has been recalled, and that Baron Von Armien replaces him as charge d'affairs for Germany at Versailles. This, says the above named journal, indicates that soveror relations with France render it possible for Germany to dispense with a military force in that country.

The Evangelical Alliance and the Emperor of Russia.

NEW YORK, August 29.—The Russian official journal publishes the report of Prince Gortschakoff to the Czar, in reference to his interview with the deputies of the Evangelical Alliance, in which he says he informed the deputation that the question of freedom of conscience was one pertaining to the Government of Russia, and one which that Government desired to settle. He declared that a compliance with some of their requests involved the abrogation of some laws of the Empire, and in that matter no foreign intervention whatever was permitted. The statement that their address had the appearance of intervention in the internal affairs of Russia, caused regret, especially to the American deputation, who thereupon asked leave to submit their own address, but this he found to contain only general observations. He at once rejected the London address, which looked like a bill of indictment, and subsequently suggested the withdrawal of both addresses to avoid offence. Although the observed no sign of irritation among the members, it was evident that a recognition of a complete want of success was visible.

Boat and Crew Picked up at Sea.

NEW YORK, August 29.—The steamer *Wilmington*, from Galveston, picked up in latitude 26 degrees and 24 minutes, and longitude 79 degrees and 31 minutes, a boat containing Francis Monte, ask to Mayard Simmons, 24 miles; and Lewis Schlader, seaman, belonging to the bark *Linda*, of Philadelphia, from New York bound to New Orleans, which foundered in the hurricane on the 25th in latitude 25 degrees 35 minutes, and longitude 79 degrees 32 minutes. The boat contained Capt. Smith, the steward, and 4 seamen, who left the bark, and was in company with the boat containing the mates until dark on the night of the 25th, when they got separated. Both boats were seen northwest from the Florida coast. After taking on board the mate's boat and crew, the *Wilmington* searched in different directions for the boat containing Capt. Smith and crew without success.

Yellow Fever at Charleston.

CHARLESTON, S. C., August 29.—A few new cases of yellow fever are reported, and three of the cases previously reported have terminated fatally since yesterday. A large number of unacclimated persons have left the city. Opinions are still divided as to the probability of the disease assuming the proportions of an epidemic.

The Mobile Disaster.

MOBILE, Aug. 29.—Submarines of Mobile have explored the sunken wreck of the *Ocean Wave*, but failed to discover any bodies. They report the boat terribly shattered by the explosion. The casualties are 55 killed and 35 wounded. Many persons believed to have been on board at the time of the explosion are still missing. Three more of the wounded died yesterday.

BOSTON, Aug. 29.—Several persons wounded in the late railroad disaster exhibit unfavorable symptoms to-day. Ed. Williams, of Lynn, aged 23, is badly scalded, and it is thought cannot survive. Fredrick Browning and J. B. Butler, both of Lynn, are in a critical condition. Jefferson Rowe, baggage manager of the Pullman train, who remained at his post, lies in the city hospital. His right arm was amputated yesterday. To-day his left leg will be taken off. He is injured internally, and received several bruises about the face, and recovery is doubtful. The number of deaths has reached 39.

Additional New York News.

Chief of Police McWilliams last evening received a dispatch from Troy announcing the discovery of McGhee, one of the parties who was supposed to have fired buildings in Washington street, Jersey City, whose body was supposed to have been burned in the ruins.

The body of a young woman found in a trunk at the Hudson river depot has been recognized as a girl who resided in 2 house on the corner of Wester and Bleeker streets. Inquiry resulted in the discovery that a sister of deceased lived in Brooklyn and had visited the dead girl. From description given by a carman it was established that she was the woman who hired him to take the trunk to the depot. Officers were immediately dispatched to Brooklyn but the woman had fled.

ALBANY, N. Y., August 29.—Gov. Hoffman has respited the murderer Buckhout until the 15th of September.

WASHINGTON CITY.

Official Appointments.

WASHINGTON, August 29.—The President authorizes Stephen J. W. Tabor, Fourth Auditor of the Treasury, to perform the duties of the Fifth Auditor during the temporary absence of J. B. Munn, Acting Fifth Auditor.

Surgeon Frank L. Dubois has been ordered to the *Iroquois*. Surgeon James S. Knight has been directed from the *Iroquois* and ordered to the *Saranac*.

Mail Lettings.

WASHINGTON, Aug. 29.—The Postoffice Department has issued a pamphlet inviting proposals for carrying mails on a large number of routes in the South, on which accepted bidders have failed to execute their contracts or perform service, which are now to be let at the expense of failing bidders or contractors.

BY ATLANTIC CABLE.

French Affairs.

PARIS, August 29.—Thiers has promised the National Guards of Bordeaux, as a token of his appreciation of their services to the country, that they shall be the last of the citizen army to be disbanded.

It is said that Count De Chambord disapproves seeking, on the part of the Legitimists, for a successor to Thiers.

Cholera in Prussia.

BERLIN, August 29.—There has been 320 deaths from cholera in Konigsberg, through the week ending 25th inst., including 127 children. No deaths have occurred at Dantzic during the last two days.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, August 30.—Passed west—A. K. Wright, Portland; L. B. Hastings and wife, Port Townsend.

OREGON.

Secretary Chadwick owns a tract of land on Coos Bay on which petroleum has been discovered.

Gov. Grover has appointed L. J. C. Duncan Judge of Jackson county to fill the vacancy caused by the death of Judge Shipley.

Burton Vroom, a Salem lad twelve years of age, had his arm terribly mangled a few days ago by the discharge of a gun. He will lose the arm if not his life.

From the *Statesman* we learn that another fire occurred on last Saturday about five miles east of Salem, whereby the house and contents of Mr. Gleun were destroyed. Loss $2,000.

THE TERRITORIES.

The contract for erecting one wing of the Washington Territory Penitentiary has been let to E. A. Sproonhio for $26,000.

Subscriptions are being raised in Olympia to repair the old Catholic Church building and convert it into an academy for boys.

Eight hundred thousand-seized logs were sold by the Government at Puget Sound a few days ago. Most of them brought only ten cents per thousand feet, the mill owners refusing to bid against the loggers.

CURRENT NOTES.

The Directors of the Northern Pacific Railroad Company and the Lake Superior and Mississippi Railroad Company have decided to complete the canal, deepen the bay and construct permanent docks at Duluth, Minn.

At Sacramento on the evening of the 25th the largest and most magnificent torchlight procession (Republican) took place that was ever held in California. The demonstration was immense and the enthusiasm boundless. There were ten thousand people in line, and the whole city was illuminated.

The Cincinnati *Gazette* thinks that the narrow gauge is the true line of railroad progress, but in order to reap its advantages we must cut loose from the clumsy forms and luxurious notions of the wide gauge cars, etc., anticipates the time when passenger cars will run on a single sharp rail, and will be kept balanced by the swiftness of the motion and the skill of the riders.

The following from Pacheco, Contra Costa county, shows how the California Republicans are doing it this year: There was a magnificent demonstration in honor of Newton Booth here today. A procession of over a mile of crowded teams, gaily draped with flags, escorted Booth from Martinez. Farmers, miners, and their families, were present from all parts of the county. Two thousand people listened to Booth, Sargent and Eastman. There was the greatest enthusiasm.

The Treasury Department has issued a statement of net receipts and expenditures by warrants for the fiscal year ending June 30th, showing that the actual redemption of the principal of the public debt for the year was $132,139,575 09. The usual monthly debt statements for the same period show a reduction of $94,327,767 84. The differences between these two statements is because of the fact that the monthly statements being a balance sheet, takes cash and accrued interest into account, which are considered outstanding liabilities.

A Washington dispatch of the 25th says: General Pope has recently issued from headquarters a pamphlet regarding the case between him and Fitz John Porter. It is illustrated by a plan of Pope's battlefield of August 29, 1862, and makes a very plain case against Porter. Quotations of orders therein have been submitted to the War Department for verification, and Porter's own arraignment of his movement on that day, and reasons therefor are shown to be quite sufficient evidence of his incapacity and cowardice, if nothing worse.

Bullion Yield of Idaho.

[From the Idaho Statesman.]

It so happens that a very large percentage of the gold and silver yield of Idaho is credited to other places. In fact, the production of gold from Boise Basin is all that can be considered as regularly and fully credited to this Territory. Thus, the yield from Northern Idaho finds its way into Washington Territory and Eastern Oregon in exchanges, and much of it is credited to those places. From Lemhi county much of the yield goes into Montana and to the railroad as from there, and is credited to that Territory. From Owyhee most of the bullion goes direct to San Francisco. This may be credited in the first instance to Idaho, but in common estimates it goes to swell the the production of California and Nevada. The statement from the mint at San Francisco is to the effect that the receipts for the last three months were nearly twelve millions. That of this, over one-half million was from Mexico, and the *remainder* from California and Nevada. It will be seen at a glance, that some of our Idaho money has been counted in by those States.

The basis of the estimates of our gold and and silver yield has been the figures on the express office books. This gives it as $6,000,000 for the past year. We think the estimate rather low. We know that a large proportion of our gold yield never goes near an express office in Idaho. The allowance made of the overplus in the express estimates has been of the money taken out of the country by private hand, and not of the amounts which goes across our borders in ordinary deal, where there are no express accommodations. We think the amounts lost sight of in this and other methods, and the under estimate of our gold and silver yield will amount, at a moderate calculation, to two or three millions, and that it ought to be estimated, instead of six millions, at eight or nine millions.

We protest against the injustice of coming our money to bolster up the exhausted placer and quartz mines of California and Nevada. According to the amount of labor performed, and the facilities for working with proper credit, it will instantly appear that our mines are vastly superior to theirs, and that is just what we insist shall appear.

A genius at New York has proposed a new plan by which the duel can be made perfectly fair to both parties, and at the same time yield a pleasurable diversion to the hostile principals for a number of minutes. His plan is that instead of meeting with pistols and a surgeon some raw morning, in a lonely field the injured parties simply repair to a comfortable room, with two ounces of corrosive sublimate, a pack of cards and a stomach pump. All being ready, each man swallows an ounce of poison, then they sit down and play seven up for the stomach pump. The winner is saved; the loser gracefully yields his breath; both are perfectly satisfied—all is fair—and the public morals are preserved.

Fatal Accident at Louisville.

LOUISVILLE, August 30.—The fourth floor of the warehouse of Whitney, Brown & Co., at Louisville, fell this morning under the great weight of grain stored on it, carrying the other floors with it to the cellar. Three men employed in the building were carried down and suffocated in the grain.

Louisiana Matters.

NEW ORLEANS, August 30.—Gov. Warmouth yesterday issued an order suspending Geo. Boree, Secretary of State, and appointed F. J. Herron, formerly U. S. Marshal, to discharge the duties of the office until the Legislature acts upon the subject. Boree's offense, the Governor charges, was in promulgating knowingly, wilfully and unlawfully, and with the purpose of imposing upon the people of the State as law, that which he knows has not become law, viz: a bill passed by the last Legislature, known as the Crescent City Water Works bill. Boree refusing to surrender the office, was forcibly ejected by the Metropolitan Police, and Herron placed in possession. Boree claims that he acted with the advice of the Attorney General of the State.

The Boat Race at Halifax.

HALIFAX, August 30.—The race is postponed till 5 the evening on account of the weather. The Paris crew am not withdrawn.

The Tammany Thieves.

NEW YORK, Aug. 30.—In an estimate furnished the morning papers of the cost of carpets for the new court house throughout, by one of the first houses of the city, the sum of $1,335,715 is set down as the amount which would be necessary to cover the carpeted. The amount actually charged the city is $3,501,846.

The *Times* this morning thinks it Gov. Hoffman's duty to institute proceedings against the men who have stolen the money from the city Treasury. It fears the present District Attorney is too intimately connected with the ring to act on the premises except upon compulsion, and therefore it Gov. Hoffman will take the initiative he can disprove insinuations that he has aided in the schemes of the ring, and at the same time vindicate his reputation.

WASHINGTON CITY.

Land Matters—Health of Chief Justice Chase.

WASHINGTON, August 30.—Commissioner Drummond has informed the Register and Receiver in Nebraska, that lands in even sections within 20 mile limits of the Burlington and Missouri railroad, selected by that State as part of the five million acres granted for internal improvements, under act of September 4, 1841, have been rejected because the lands are double the minimum and therefore, by the terms of that act and the act of March 6, 1865, are not subject to such selection. The Commissioner directs said lands advertised as having been restored to pre-emption and Homestead entry.

A letter from Bethesda mineral springs relating to the health of Chief Justice Chase, who has been spending a month at that resort, and will remain several weeks longer, says his weight has increased nine pounds in four weeks, and what is more important, has recovered his full vigor both of body and mind, feeling in better health than before his serious attack.

The Spread

The Daily Oregonian.

THURSDAY MORNING, AUGUST 31, 1871.

Growth of Portland.

Yesterday we spoke of the unprecedented growth of Portland this summer, as shown by the great number of buildings in course of erection, the vast amount of street work being done, and other evidences of the unusual progress of the city. To-day we are able to put the statement in a more definite and convincing shape. An actual enumeration of the new buildings gives a practical illustration of the city's growth.

A reporter of the OREGONIAN yesterday, accompanied by Mr. J. L. Atkinson of the real estate firm of Parrish, Atkinson & Woodward, made a tour of the city for the purpose of ascertaining by actual count the number of buildings erected this year, or now in course of erection. The buildings counted were dwellings, stores and business houses. Smaller buildings were not enumerated. The number counted of the class above named was *three hundred and thirty-three*. By far the greater number of these buildings are of a superior class. Several of them are great and massive brick edifices which would be an ornament to any city. Of the dwellings erected or in the course of erection, at least two-thirds are elegant and commodious structures, many of them costing from $6,000 to $12,000 each.

Street improvement is going on in all directions with more vigor and activity than ever before. It is yet too early in the season to make an estimate of the actual amount of the street work of the year; yet it can safely be said that the extent of these improvements as much exceeds that of any former year as the number of buildings in course of erection this summer exceeds those erected in any former year since the growth of Portland began.

Here, then, is substantial evidence of the progress of Portland. Nearly three hundred dwelling houses, many of them large and elegant mansions, already built this year, or in process of building; and at least one hundred more will be erected before winter. That the increase of population keeps pace with the increase of the number of buildings is established by the fact that there is at this moment scarcely a single vacant dwelling in the city. More than a million dollars will be expended this year upon buildings and other improvements in Portland, and the actual expenditure may be nearer two millions than one. Here are facts enough to show that Portland is making magnificent progress. Her growth probably exceeds that of all the other towns north of California, taken together.

We should add that in the above enumeration of buildings and improvements, the wharves, docks and other works erected in connection with the railroads in this city are not included, nor is any estimate made in the above of the number of buildings in course of erection in East Portland. It is safe to say that at least fifty good buildings will be put up in East Portland this year, and other expensive and valuable improvements are also in progress there.

A Little Out of Time.

Out here in Oregon, a place which we have a recent authority for saying is a long, long way from that center of news and intellect known to the entire population of the United States by the enviable name of "Old Pike," we have long been aware that the reconstruction of the Southern States was completed, that the days of military Governors were over, that all those States long since resumed their legitimate connection with the Government of the Union, and that they have now Governors and Legislatures, and local officers generally, of their own choosing. It grieves us, however, to learn that these important facts are not yet known in "Old Pike" so well as they should be. We find the *Herald* saying:

> The people of nearly one half the States, instead of electing their own Governors, local officers and legislatures, are parceled out in Military Districts, and subjected to the domination of a shoulder-strapped upstart, who, with a cohort of soldiers at his command, is responsible to the Central Executive at Washington, who, in conjunction with a Congress, subject to his will, has practically annihilated the Constitution, usurped its authority, and looks it over the late heritage of Liberty, without compunction or remorse.

This, probably was very well in its way as a make-shift for Democratic editorials three or four years ago, but it is slightly out of date now. Seeing that there is not a Governor, legislator or local officer in any of the thirty-seven States except such as are elected by the people and that all the thirty-seven States now stand on precisely the same footing under the Constitution, with their rights and powers fully equal and all alike protected by the common Government, there would seem to be a little anachronism, or some worse kind of error, in the *Herald's* deliverances. We do wonder when they will learn in "Old Pike" that reconstruction is finished, and that the States are all in the Union again, on an equal footing? Perhaps it is unfortunate that the "Radicals" keep things moving so fast that Democratic editorials of three or four years ago don't suit now!

Dalles and Ochoco Mail Routs.

The following letter, which has been placed at our disposal by Senator Corbett, will be found to contain information of interest to the large community now settled in Ochoco Valley and the adjacent country:

POST OFFICE DEPARTMENT,
SECOND ASSISTANT POSTMASTER GEN'L,
Washington, D. C., Aug. 14, 1871.

SIR: The letter of Mr. Waldron, Postmaster at The Dalles, endorsed by yourself, and enclosing one from Special Agent Underwood, in relation to placing service on route No. 15146, The Dalles to upper Ochoco, has been received. In reply you are respectfully informed that the service had been offered to the lowest bidder, with authority to commence at once.

At the letting last March, there was not an office on the route, after leaving The Dalles.

Respectfully,
E. L. CHILDS, Chief Clerk,
for Second Assistant P. M. Gen.

Hon. H. W. CORBETT, Portland, Ogn.

One of the easiest of all known ways of preventing a clash of opinions is to have no opinions of your own. This appears to be the philosophy of the *Herald* under its new management. It studiously avoids all allusion to current political topics, and declines to express an opinion in regard to the "new departure" or anything else which its party is discussing. In this way it avoids a clash with those journals of its party which are independent enough to have opinions of their own, and fearless enough to utter them. They all speak out. But since Democratic principles are now in a somewhat unsettled state, the *Herald* tries to avoid the dilemma of a controversy by seeming to have no opinions.

PATENT.—A few days ago a patent was issued at Washington to Dr. C. H. Mack, of this city, for a new dental instrument.

The Park.

The public have seen the estimate of the cost required for opening the park streets and connecting the same with the parks in Couch's Addition, as published in the city papers—the estimated cost being $110,000.

There is a settled feeling among citizens of Portland that the interests of the people, the future and character of our city, and the health and comfort of the inhabitants, all depend greatly on the opening and ornamenting of this grand avenue and thoroughfare through the center of our city, north and south.

Unless this be done we shall have no park commensurate with the wants of our people. Passing through the center of the city, this avenue is indispensable for all classes of our population. Planted with trees, ornamented with walks, shades and fountains, it would be a pride to the city and a source of gladness and health to the thirty thousand people who in ten years will have homes here.

We believe that a citizen cannot be found who does not appreciate the necessity of extensive, convenient and easily reached park grounds, for the use, benefit and reputation of our city. Where could we find more convenient, better situated, or more extensive grounds for this purpose than the wide park avenue extending through the city? Better grounds for all the purposes desired could not be wished for.

Ten years hence, if the park streets are now opened, the sum of $110,000 would not be regarded at all, as compared with the advantages of this grand avenue. Hence it is hoped that the Council will move on in what it appears is their duty, and make provision for opening our grand central park avenue. Let us have this, and an abundant supply of good water, and two great measures will then be consummated for adding to the beauty, convenience and health of our growing city.

The Wreck of the Golden Rule—A Sensational Story.

The New York *Sun* of the 23d August, contains a five column account of the wreck of the steamship *Golden Rule* on Ranadur Reef, Caribbean Sea, in 1865. It accuses the Captain and one Gibbs of wrecking the vessel intentionally in order to steal $1,162,150 in treasure on board. We quote from the *Sun's* account:

> The investigations of the detectives extended through nearly two years, and their reports to the Treasury Department were voluminous. From these reports, the originals of which have been in our possession, and from personal investigation by a member of the *Sun*, it appears that the United States treasure on board the *Golden Rule* consisted of one million dollars in greenbacks; $162,350 in 7-30 treasury notes, and $300 in coupon bonds, making a total of $1,162,150. The treasure was in an iron safe, encased in a wooden box. The safe was intrusted to the charge of Rufus Leighton and Victor Smith, special agents of the Treasury Department, to be delivered to the Assistant Treasurer in San Francisco. Col. Wood, formerly of the detective service, says there is no doubt in his mind that the *Golden Rule* was wrecked on purpose, and the Government treasure stolen by Montgomery Gibbs and Captain Dennis. Gibbs put up the job and led Dennis into it. Among other things, he says: "I had a chart of the vessels course made, and it is on file now, from the time she left New York till she struck the reef; and it is plain she was steered on. They made straight for the reef. Gibbs went on board under an assumed name; I think it was Gibson. The passenger list shows that it was. Before buying his ticket he inquired repeatedly at the office if Government money had gone on board, and as soon as he learned it had, he took passage. It was evident that he did not intend to go unless the money was on board. He was plying the Captain and others from the time the vessel sailed till she struck. There is plenty of evidence on that point. I examined a number of passengers and some of the hands, and the testimony is clear. It is also clear that after the vessel struck on the reef Gibbs virtually took command. He and the captain set a guard over the baggage hold, where the treasure was, and would let no one get anything out. They had two women on board to help them. One was named Livingstone, the name of the other I don't remember. She has since married respectably. Tommy Girvan was put on Dennis, and the first thing I heard was that Tommy, who never before was worth a dollar, had bought a farm near Dennis', at Ellicott Mills, and was importing bulls, sheep and rams. Jim Downs and Deputy Marshal Grover were then put on Girvan and they "pulled" him, and took him to Farnum's Hotel, in Baltimore, where they all got drunk, and Girvan bought them off for twenty dollars. That was all the money he had, and they took it. Girvan has played out at farming and gone off. I could not find him. Captain Dennis is still at Ellicott Mills. I would have arrested him had it not been for the desire of the administration to protect him. Gibbs has won over Washburne, General Grant, Speaker Blaine and others, and so there is no use of pursuing him further. If the Government would have him and Dennis indicted I could convict them, if the prosecution was pushed in good faith. The chain of evidence is complete, as it stands there on file. There never was a more complete chain of circumstantial evidence in my opinion."

On the other hand there comes a statement from Washington which puts a different face on the matter. We quote from a dispatch of August 24th:

> A short time after the wreck of the steamship *Golden Rule*, the safe belonging to the United States Treasury was found and forwarded here, where it was examined by the department machinist, who reported that it did not bear marks or evidence of having been forced open by the use of instruments, but could have been, and probably was, broken up by being violently thrown from side to side of the hold of the vessel and among the rocks after the vessel broke up. No part of the money contained in the safe was ever recovered, and notwithstanding the unremitting efforts of the department through detectives and otherwise for more than three years, nothing has been discovered casting suspicion on the officers or crew of the vessel nor on those employed on the wreck of the vessel. It is now over six years since the *Golden Rule* was wrecked. The notes contained in the safe are past due for three or more years, and no trace has been found of their existence.

WOOD CARPETS.—The wood carpeting and portable wainscot, introduced a year or two since, is lately coming into high favor, and promises to do away with oil cloth in a great measure. It is composed of lath strips of walnut, ash or hard pine, placed alternately and glued to canvass, which forms a base for the piece until nailed down. The advantages of durability, cleanliness and elegance of appearance, with almost endless variety of design, are combined with at cost not greater than that of an ordinary carpet. The manufacture of this wood carpet has become quite an industry in itself, and promises to be greatly extended. In this connection, it is strange that some use has not been made of sawdust for a similar purpose. Sawdust has been combined with glutinous substances, and made under pressure into various forms. There can be, therefore, no reason why it should not be applied to purposes of flooring and paving, and especially the latter, as in combination with proper substances, it could be made to supply the most desirable character of paving block. It is in the utilization of such comparatively waste substances, that the most practically valuable inventions occur.

The Mobile *Register* quotes a New Hampshire Democratic editor to prove that the Fourteenth and Fifteenth Amendments are void, absolutely void, and says it is a pity that some of the South's "own political sneaks," who live on abusing Northern Democrats, are not as faithful and true as the sterling Democracy, even of New England.

THE OLDEST YET.—The Hillsborough (N. C.) *Recorder* of the 9th says:

> Mr. Lydia Shanklin, probably the oldest person in this State, died at her residence in this county on Friday last. She was about 112 years old. Was a grown woman during the Revolutionary war. This good old lady attended the organization of Orange Presbytery at Hawfield church, Sept., 1679, and was very anxious to attend its centennial meeting in 1870; but the gay girl of 1770 found herself bowed down with age in 1870, and was unable to attend the meeting."

Messrs. Henry Clews, Joseph H. Choate, John Foley, Lewis Ballard, Joseph Boors and ex Governor Salomon, have been appointed a committee to make arrangements for the public meeting of citizens of New York to take action with regard to the frauds on the City Treasury, and the robbery of the public money by the Tammany "Ring." The time of holding the meeting was fixed for Monday, the 4th of September.

REMARKABLE CURE OF MRS. HOOVER.

TUALATIN PLAINS, WASHINGTON CO., OREGON, July 22, 1871.

DR. A. M. LORYEA—I have been troubled with Rheumatism for the past twelve years; my joints, especially those of my feet and hands, were badly swollen, so that I could with difficulty go around. My shoulder pained me a great deal and a large bony swelling grew out, so that I could not raise my hand to my head.

Seven last spring I have been taking your "Uric Weed Remedy," and find myself much improved. The swelling and pain has left my joints and shoulder and the bony growth has entirely disappeared and I use my limbs and am far better than I have been for years.

R. F. DANFORTH'S

PATENTED

PETROLEUM FLUID

Perfectly FREE from the Danger of Explosion.

THIS FLUID, AFTER YEARS OF PATIENT EXperiment, and the expenditure of over one hundred and fifty thousand dollars, has been produced by R. F. DANFORTH, of Cleveland, Ohio, and has been introduced with perfect success.

IT CANNOT BE EXPLODED in a lamp, or in any way, or by any known test.

IT IS FREE FROM GREASE AND FILTH, and will not leave the finest fabric.

IT IS FREE FROM ALL DISAGREEABLE ODOR, and in this respect is preferable for a night lamp.

It gives a purer, more brilliant, and at the same time softer light than any oil or fluid in use, and is fully equal to gas light.

IT DOES NOT SMOKE THE CHIMNEY in the least.

A gallon of it will burn as long with the same height of blaze as Kerosene.

It is more easily extinguished, when ignited, than Kerosene.

It is strictly pure, containing no mixtures or chemicals, burns in an ordinary Kerosene lamp, with simply changing the burner, with or without a chimney.

THIS FLUID is now on Exhibition at the

CHANGE OF PROPRIETORSHIP.

H. H. PEARSON,

Late of the Russ House.

HAVING BOUGHT THE INTEREST OF MESSRS. Tubbs & Patton, of the Cosmopolitan Hotel, has secured a lease for a term of years of this well known and elegantly furnished Hotel. His previous reputation assures its being kept in first class style, while in order to keep pace with the times he intends to make important reductions in the scale of charges. His intention is to make it a family and business house, while his large connection with the traveling public, warrants him in expecting a large amount of country, Pacific Coast and Eastern patronage. The prices will range from two to three dollars a day, for ordinary accommodation. Board by the week or month at per contract. The Table will be kept on the most liberal scale, and many improvements introduced. The spacious reading room is the finest of its kind in the city, while the furniture and fittings generally are superior to those of any hotel in San Francisco. The house will be thoroughly overhauled. Mr. PEARSON assumes the proprietorship, this day, August 1st. au1d2m2p

THURSDAY MORNING, AUGUST 31, 1871.

CITY.

BRIEFLY SAID OF YESTERDAY.

The steamer reached San Francisco on Tuesday evening from Portland.

The only vessel seen off the bar on Tuesday was the *Jane A. Falkinburg*, from Honolulu.

The loss experienced by the late fire in Carter's new addition, amounts to several thousand dollars. The fire continues to rage at intervals, among the timber. A Mr. King, residing south west of Robinson's Hill, was burned entirely out. Also, Mr. John Flynn, a milkman, very narrowly escaped having his ranch destroyed.

H. Brown was arrested yesterday and arraigned before Judge Denny, on the charge of an assault on one Wallace with a dangerous weapon. He was held to answer in the sum of $500.

The pay roll of the police force the present month amounted to $855.

Albany will send thirty men to participate in the Fireman's Parade on Monday. The Dalles fire company will send a delegation of eight men.

The total membership of the Portland Fire Department is 225, distributed as follows: Engine Co. No. 1, 38; Engine Co. No. 2, 62; Engine Co. No. 3, 56; Engine Co. No. 4, 51; Hook & Ladder Co., 19.

A child was run over by a buggy on last Tuesday evening and severely hurt.

Several young men have been arrested in Washington county for pitching water melons. They were punished according to the magnitude of the crime. Stolen fruit may taste sweet, but it is likely to prove Dead Sea fruit in the end.

The Sunday school of Trinity church will meet on Sunday, September 3d, at 9:45 A. M.

A large number of piles are secured by a boom along side of the old wharf of Capt. Flanders.

The iron cable of the new ferry boat will soon be mended so as to permit the passage of the boat.

The turn-table has been completed at the lower end of the west side railroad.

A large wharf will soon be commenced at Astoria by the N. P. T. Co. A contract has been closed for the delivery of 30,000 feet of piles during next month.

The steamer *Carrie* is undergoing repairs at the wharf in Vancouver.

A letter from Senator Kelly states that he will spend the next two months at Chicago.

The anticipated cost of the coming Firemen's parade will be $1,580. The City Council has appropriated $500. The remaining deficit will be made up among the several companies by assessment.

Mr. Illsley of the late firm of Conklin & Illsley, contemplates the erection of a sawmill somewhere on the lower Columbia.

On Wednesday next the fall term of the Pacific University at Forest Grove will commence.

The body of Mrs. Col. Nye, who died about a year ago at Hood river, was brought down on the *Oneonta* yesterday evening. It will be taken to California by the next steamer for interment at Marysville.

The annual convocation of the clergy of the Episcopal church will convene in this city this evening.

An excursion will take place to-day. The steamer *Vancouver* will leave the wharf at the foot of Washington street, at 10 o'clock A. M., and proceed to Vancouver. A lunch free to the excursionists will be be served at Edding's Hall. Returning, the steamer will leave Vancouver at 2 P. M. The excursion will be given under the auspices of the Episcopal Church.

The thermometer stood yesterday at 90° in the shade.

The Bishop Scott Grammar School will commence on Tuesday, September 5th.

Sales of real estate at the auction rooms of A. R. Richardson, yesterday, were as follows: The fractional part of lot 5 in block 9, 37½x100 feet, $2,100; a piece of land containing 5 acres, to F. Holland's land claim, $250.

The bark *Welfoot* has gone down to Kalama.

The steamer *Okanagon* is being repainted and repaired.

Work on the steamer *A. Hayward* proceeds slowly. The upper works will not be completed before a month. The machinery and boiler will soon be in running order.

During the present month there has been thirty State cases disposed of before Judge Denny.

From fines alone Judge Denny paid into the City Treasury yesterday the sum of $76. This is very good work for the city in one day.

The County Court will convene on next Monday, 4th inst., to transact county business.

The *Gussie Telfair* will bring to this port 150 tons of coal from Nanaimo, for the gas company.

Rev. Cyrus Dickson, Secretary of the Home Mission, is traveling through Washington Territory.

Mr. Felix Brunot, Special Commissioner of Indian Affairs, has gone to visit the Neah Bay Reservation, at the mouth of the Straits.

Col. A. P. Denison, of this city is traveling over on the Sound. He is traveling for the benefit of his wife, who is in a low condition of health.

A. S. Mercer, of *Continental* fame, emigration, schemes and girls for Washington Territory, is now over on the Sound intent upon another huge scheme.

We hear that there is some talk of organizing a new Post of the Grand Army of the Republic over at Vancouver.

A gentleman from Vancouver informs us that Clark county is very rapidly filling up.

Ex-Councilman Wm. Cree is reported seriously indisposed. He is confined to his bed.

The steamship *Idaho* has not yet arrived. She is doubtless detained off the bar by smoke.

Rumors are around that the *Annie Stewart* will soon be placed on the line between this place and Astoria, as an opposition boat. Very doubtful that.

Thirty-three freight cars were attached to one locomotive on Tuesday evening on the train from Salem.

The cargo of the bark *Bowenby* will be discharged by Saturday. A portion of the iron will be left in as ballast until a portion of her return cargo can be placed on board.

A person whose name could not be ascertained was compelled to suspend his work yesterday in consequence of the excessive heat. He was so overcome that he was unable to walk home. This is the only case this season approaching a sunstroke.

Some of the parties who have sustained severe loss by reason of the fire on Monday night, talk of suing the city for damages—so it is reported.

There will be a meeting of the Board of Delegates of the Portland Fire Department on Saturday evening next.

SCRIBNER'S MAGAZINE.—This popular periodical for August is again at hand, with its accustomed rich and varied literary bill of fare. In the quality of its articles, the number and excellence of its illustrations, and the variety of matter adapted to all tastes, it is rapidly advancing to a leading position among the favorite magazines of this country. The following table of contents is presented: Pictures from Canada; Mercator, the Pathfinder of the Sea; Whose Wife was She? Mountain Views and Adventures; The Songster; Scenes from the Marble Faun; Chinese Skilled Labor; A Woman's Execution; The Rivers of Egypt; The Cloud and Fire; Peter Block; An Adventure in Japan; The Co-education of the Sexes; Wilfred Cumbermede; A New Study of an "Old Force;" Topics of the Times; The Old Cabinet; Home and Society; Culture and Progress Abroad; Culture and Progress at Home; Literature; Etchings, etc.

DISMISSED.—In Justice Moreland's Court yesterday the case of the State vs. Robert Hayward, charged with the seduction of Miss Ursula Pierce, came up for trial. In the absence of the complaining witness, the Justice discharged the defendant and issued a bench warrant for the arrest of the witness for contempt of Court. On the statement of the father of the young lady, it appears that she left home on Tuesday without his knowledge or consent, and that he had not been able to discover any traces of her whereabouts up to yesterday morning, although the most careful and diligent search had been made.

FOURTH ASSESSMENT.—At a meeting of the Directors of the Masonic Building Association, held on the 5th of August, an assessment, No. 4, of 25 per cent. was levied on the capital stock, payable at the office of the Secretary on or before September 1st. This last assessment will be due to-day. Stockholders will do well to bear this thing in mind.

ERRONEOUS REPORT.—We are requested to contradict the report in regard to the marriage of Miss Annie Pixley and Mr. Campbell, as we have since learned that Mr. C. left Boise City on or about the 15th of August for Chicago, and that Miss Pixley will be here on Tuesday next. The marriage was first announced in the Boise papers.

MELONS.—Owing to the large quantities of melons waiting shipment from the upper Columbia, the O. S. N. Co.'s agent at the Dalles telegraphed for more cars.

COMMON COUNCIL.

The Common Council met last evening at the usual hour, Mayor Wasserman in the Chair.

Members present—Besser, Bills, Burton, Caywood, Coombs, Hallock and Hill.

On motion, the reading of the minutes of the previous meeting was dispensed with.

PETITIONS.

Building permits were granted to Ankeny and Watson and Lewis Love. W. H. Smith was granted permission to use part of B street between Fifth and Sixth.

A petition from W. W. Spaulding and others asking for a change of grade between D and H streets, was referred to Committee on Streets and Public Property.

A communication from Councilman Conglo, dated at Eugene City, asking permission to be absent on business. The request was granted.

A communication was received from the Secretary of the Portland Water Company, stating that the company had received a pump from Brooklyn, N. Y., that it was in use at their works, and inasmuch as the best mode of supplying the city with water was attracting attention from both the press and Council, he would respectfully request the Council to visit the works and see the pump in operation. If that body would inform him when it would be convenient for them to pay it a visit, he would provide the necessary conveyances. The invitation was accepted, and the Mayor requested to state when the time should be.

A communication was received from the Fire Department, inviting the Council to participate in the coming anniversary parade. Invitation accepted and communication placed on file.

A remonstrance, signed by L. Fleischner and others, representing 18,900 feet of property, against changing the grade on Fourth street, was read. Communications were read from others who had signed the remonstrance against the change, asking that their names be erased.

A special remonstrance against the change of grade, signed by Messrs. Vaughn, Risley and others, was read. This remonstrance specified that changing the present grade would injure the adjoining property, and also render a change necessary in Columbia, Jefferson and other streets, and that this would have to be done at great expense. The present grade on Fourth street was but recently established, and they did not suppose the city would alter the improvement.

On motion, all communications in reference to the subject were referred to the Committee on Streets and Public Property.

Mr. Caywood asked leave of absence for Councilman Mollett, who was detained in San Francisco longer than he anticipated. The request was granted.

Mr. Hill moved that when the Council adjourns it be until next Monday evening, as that evening would be the most convenient for gentlemen of the O. & C. Railroad, who would attend the meeting to see in regard to the Fourth street grade. Carried.

A communication was received from Mr. W. F. Trimble, in which it was stated that the subscriber was City Attorney at the time of the opening of the suits between Carter and Mason and the city, relative to the possession of certain Park blocks. He had examined the matter, and thought that the decision recently rendered in favor of the plaintiffs by the Circuit Court was erroneous. He would, therefore, submit the following proposition to the Council: that if he was paid $500 he would argue the matter before the Supreme Court, and if he was unsuccessful in the suit he would ask nothing.

Mr. Hill moved to refer the matter to the Committee on Streets and Public Property.

Mr. Hallock thought it would be unnecessary to refer it, as he would present an ordinance relative to the matter.

Mr. Hill thought such an ordinance unnecessary. Such a communication coming from a respectable attorney seemed so queer that he wished to have the matter investigated. The gentleman was a good lawyer but he did not know that he was the best.

Mr. Hallock said many attorneys were of the same opinion as Mr. Trimble, and as the City Attorney could not attend the Supreme Court and be here at the same time, he deemed it necessary to furnish him aid. He thought the Park blocks belonged to the city, and he would vote $500 or $1,000 to recover them. To refer the matter to a committee was but to procure delay, and to prevent it from being properly attended to.

Mr. Hill said this District would not come up before the Court for some time, and he did not wish to have lawyers purchased by auction, therefore he would wish to have the matter investigated. The original motion was referred to the Committee on Streets and Public Property.

REPORTS.

The City Attorney made a report upon the resolution passed at a recent meeting, asking him to investigate a deficiency which existed in the assessments made to improve the property of S. A. Stansbury. He stated that the city is bound by the estimate of the City Surveyor, and that it should pay for the improvements. It was referred to the Committee on Accounts and Current Expenses.

In relation to the matter of the obstructions of College street, the same office reported that the action of certain parties in obstructing it was illegal, as it was dedicated to public use. He hoped action in the matter might be delayed for a short time until he should make further statements. Report filed.

The report of the City Surveyor on the extension and improvement of Ninth and Tenth streets, was referred to the Committee on Streets and Public Property.

WARRANTS.

Warrants were ordered drawn for the payment of the following bills: H. L. Pittock, $31 34; T. Patterson & Co., $49 75; Russell, Ferry & Woodward, $2 75; C. Hopkins, $11 75; Northrop & Drew, $382 29; W. H. Butts, $423 92.

ORDINANCES.

The Committee on Streets and Public Property introduced two ordinances to adopt the report of the City Surveyor relative to the extension of Ninth and Tenth streets. Read twice.

An ordinance by the same Committee relative to changing the grade of North Fourth and South Fourth streets, was read twice and referred to the Committee that introduced it, with orders to report upon it at the next meeting.

An ordinance by the Committee on Fire and Water, authorizing the Committee on Fire and Water to make such expenditures as were deemed necessary to make an investigation as to the best modes of supplying the city with water, was passed.

Mr. Hallock introduced an ordinance to secure the services of an assistant for the City Attorney to argue the case of the city against Carter and Mason before the Supreme Court, his pay to be contingent and not to exceed $500. Read twice and laid over.

ENGROSSED ORDINANCES.

An ordinance relative to the purchase by the city of such property as was offered for sale by the Chief of Police, was amended and passed.

An ordinance adopting the report of the viewers on the extension of Main street, and one to increase the salary of the Chief Engineer, were laid over.

RESOLUTIONS.

A resolution by the Committee on Streets and Public Property, authorizing the Auditor to issue a notice that the Council proposes to improve Columbia street between the lower and Second street, was adopted.

A resolution by the Committee on Fire and Water, authorizing the Auditor to draw a warrant for $500 to defray the expenses of the parade was adopted.

A resolution by Mr. Besser, specifying that the present ordinance relating to flues and chimneys was defective, and authorizing the Chief Engineer and Committee on Fire and Water to amend it so as to cover deficiencies, was adopted.

The Council then adjourned.

NEW DREDGER.—Major Roberts and Captain Kellogg returned yesterday from Mathony's bar on the Upper Willamette river, at the mouth of the Yamhill river, where they commenced dredging. In two and a half hours the bar was lowered one foot. The dredger is shaped something like the letter V, across the bottom of which and connecting the two points is woodwork, attached to which are four scoops. The dredger is placed on a steamer, which has attached apparatus for hoisting and lowering it. The dredging is accomplished by lowering and backing the dredger.

BUSINESS NOTICES.

SELECT SCHOOL.—In another column will be seen the advertisement of the Beth Israel Select School. Mrs. O. S. Phelps is Principal.

MOULDERS WANTED.—Six good moulders can find steady employment by applying at the Willamette Iron Works at once.

VERY CONVENIENT.—The pocket map spoken of in yesterday's issue, of Russell, Ferry & Woodard, is one of the most useful and convenient we have seen. It is invaluable as a chart of reference, and can be carried as easily as a pocket book; includes a correct map of East Portland, is printed on flexible bank note paper and sold at the low price of 75 cents per copy.

DR. ADORN'S SUCCESSES.—Among the many successful cures by Dr. Adorn since his arrival in this city was that of Mr. Staggs of Wasco county, near the Dalles, who has been a sufferer for many years with pains in the shoulders and limbs from chronic rheumatism, so severe that for a long time he has not been able to put on his clothing alone. He came to this city for medical assistance, and commenced Tuesday with Dr. Adorn's treatment, and last evening could and did pull off and put on his coat as quick as any one and feels like a new man.

SCHAEBEN & BROWN of Vancouver are offering desirable Town Lots in that place for $65, for a few days only.

BEATING HIS WIFE.—A celestial was arrested last evening for cruelly maltreating his wife. Both were arrested on the charge of disturbing the peace, and locked up. The case will be examined into this morning before Judge Denny.

BOSTON OBSERVER.—Mrs. Mary Simmons' Private School, corner Third and Main streets, will open Monday, 21st inst. Pupils will be taken during the term.

WILLAMETTE UNIVERSITY, SALEM.—The next Term will begin Monday, Sept. 11, 1871. For full information address T. M. GATCH, President.

TO CARPENTERS AND BUILDERS.—G. L. Hilliard & Co., have on hand and for sale at very reasonable prices, a large lot of DOORS, BLINDS and WINDOWS of the best quality. They also have a fine lot of Machine Oils, Wagon Timber, Plows and Family Groceries. Persons wishing the above articles will do well to give them a call, corner of Alder and Front streets.

Wilted Down.

Ask the man who complains of "wilting down" in torrid weather what he has done to sustain his system under the extra strain imposed on his vitality. He may tell you that he has tried a variety of cathartics to purify his blood and brighten his spirits. Under such treatment, of course, his strength has given way, and his energies have become exhausted. What he requires is a restorative, not a depletant. His blood is thin; his nerves have lost their natural tonalon, and nature demands to be renovated and reinforced. The means is within the reach of all. For nearly a score of years, Hostetter's Stomach Bitters have been building up broken constitutions, strengthening attenuated frames, and affording comfort, ease, and hope to thousands. As a preventive of the epidemics which make such havoc with the health of the inhabitants of new settlements, this famous tonic is certainly without a rival. Perhaps the principal portion of its world-wide fame is attributable to its astonishing cures of dyspepsia, and all forms of indigestion. But these are not a moiety of its triumphs. All the types of biliousness yield to its persistent use. It is a regulating medicine of the highest order; and its effect upon the secretions, when regular, are most salutary.

Imposition of the grossest character is sought to be practiced upon the community by vendors, who recommend under the name of "bitters," fiery compounds of a dangerous character, which they attempt to substitute for the great national tonic. Shun all such nostrums, and see that you have the genuine Hostetter's Stomach Bitters, properly authenticated by label, name and stamp, and sold in bottles only.

THE GREAT WORLD TONIC!

PLANTATION BITTERS

This Wonderful Vegetable restorative is prepared from pure St. Croix Rum and Calisaya Bark, known the world over as possessing wonderful tonic properties. As a Tonic and Cordial for the aged and languid it has no equal.

PLANTATION BITTERS

Just the thing for the morning lassitude and depression of spirits caused by late hours and what is called fashionable dissipation.

PLANTATION BITTERS

Of all the appetizers it is the most infallible, and the impulse which it imparts to the digestive functions soon puts Dyspepsia to flight.

PLANTATION BITTERS

It is the foremost remedy of the age. The specific of every species of debility, general or local, constitutional or casual.

PLANTATION BITTERS

A wine glassful taken half an hour before breakfast, dinner or supper, quickens the flow of the gastric juice, and thereby provokes hunger.

PLANTATION BITTERS

"By its use I dispose of three good square meals per day, with a good relish, have no pains and have gained sixteen pounds in eight weeks; sleep well, and consider myself a healthy man."

PLANTATION BITTERS

Taken moderately, three times a day, will give you strength, health and a cheerful and contented disposition.

PLANTATION BITTERS

Will give rest and quiet to those who cannot sleep, from unsatisfactory condition of their affairs.

PLANTATION BITTERS

Will restore tone and vigor—just the thing for mothers nursing.

PLANTATION BITTERS

"Well, they cured me of every distressing symptom in ten weeks and you had better follow my example."

PLANTATION BITTERS

If you want pure, rich and electrical blood—blood that gives tone to the system, the "fountain of health" to the cheek.—Try it.

PLANTATION BITTERS

Thousands of families in Ohio and Mississippi valley, and on the border of the Southern rivers and swamps, will not be without out.

PLANTATION BITTERS

Which is the cheapest? A dollar bottle of Plantation Bitters, or a physician at two dollars a visit?

PLANTATION BITTERS

"The value of such an antidote cannot be expressed in words."

PLANTATION BITTERS

Will restore the vital energy, repair indigestion, and correct the sluggish circulation of the blood.

PLANTATION BITTERS

Is an unequalled invigorating cordial for the aged as well as for the young.

PLANTATION BITTERS

Is unsurpassed for weak and delicate persons, on their requiring a gentle stimulant.

PLANTATION BITTERS

"I began taking your Bitters the next day, and am perfectly happy to tell you that they have completely restored my health, strength and cheerfulness."

PLANTATION BITTERS

"I find nothing so good for headache and languor to which my daughters are at times subject. It gives them a splendid appetite, and they eat like pigs."

PLANTATION BITTERS

"By advice of my physician, soon after my baby was born I commenced taking them, and they have done me so much good."

Left Behind.

It was the autumn of the year.
The strawberry leaves were red and sere,
October's chill again fresh and chill
When passing on the windy hills,
The hill that overlooks the sea—
You talked confidingly to me—
Me, whom your keen artistic sight
Has not yet learned to read aright,
Since I have told forty hearts from you,
And loved you better than you knew!

You told me of your lifesome past,
The tardy honors won at last,
The trials borne, the triumphs gained,
The longed-for boon of fame attained!
I knew that every victory
But lifted you more from me—
That every step of higher price,
But left me lowlier in your eyes;
I watched the distance as it grew
And loved you better than you knew.

You did not see the bitter tears
Of anguish sweep across my face;
You did not hear my proud heart beat,
Heavy and slow 'neath your feet;
You thought of triumphs still to win,
Of glorious deeds as yet undone!—
And I, the while you talked to me,
I watched the gulls floating scornfully
Till last amid the hungry blue,
And loved you better than you knew.

You walk the sunny side of fate—
The gods smile on all that you create—
The perfect fruitage of success
Drops at your feet in plenteousness
And you have blessings manifold—
Riches and power, and friends true and gold;
They build a wall between me twain,
Which may not be thrown down again.
Alas! for I, the long years through,
Have loved far better than you know!

Your life's proud aim, your truest truth,
Have kept the promise of your youth,
And gladly you can sing now, which now
I can but hum with voice subdued,
My soul cries strongly out to you,
Across the ocean's yearning blue,
What is unremembered and slay—
I will not be watched away,
Through darkness, struggling into view,
And loved you better than you know.

I need to dream, in all these years
Of patient faith and silent love,
That Love's strong hand would put aside
The barriers of place and pride—
Would reach the pathless darkness through
And find me waiting for it true;
But that is past. If you could stray
Beside my grave some future day,
Perchance the violets o'er my dust,
Will half betray their buried trust,
And say, their blue was full of dew,
She loved you better than you knew.

German Catholicism.

[From the Washington Chronicle.]

The significance of the Assembly which convened in Heidelberg on Sunday, the 8th inst., to take [illegible] the organization of a German [illegible], independent of the Pope [illegible] by American [illegible] that forty delegates were [illegible], Austria, and Switzerland, [illegible] whom [illegible] were appointed and what was the extent of their powers can only be a matter of conjecture until further intelligence be received. We are vaguely told that they represent those Catholics who believe that the dogma of Papal infallibility has revolutionized the relations of the Holy Father to his spiritual subjects, and that it is important to revive the ardent order of things. The Assembly named a committee to prepare a [illegible] for the new church, based upon the principles of the Council of Constance, held in 1414 and especially the power of the Council to [illegible] the Pope himself.

Among the questions raised in the Assembly are the separation of Church and State, the [illegible] of laymen in the [illegible] administration of the Church, the free election of bishops and clergy, and a modification of the [illegible]. The authority of the Pope was totally denied by a strong party, demanding a total rupture with Rome and [illegible] on a purely national Church. The Assembly adjourned to meet at Munich in September, to consider the report of the [illegible] on Church Organization.

This movement is one of startling boldness and of radical thoroughness in its demands on Rome. It seems to be the utterance of a powerful and daring movement, which is formidable in [illegible] important political movements. The Bavarian Government has very openly given its countenance and support to the intrepid Dollinger, whose [illegible] of the Papal [illegible] his excommunication. [illegible] it has disowned his new [illegible] prime minister, Count de Bray, and has replaced him with an adversary of the dogma of infallibility. Bismarck is said also to favor this new movement in hope of detaching German Catholics from Rome, and thus neutralizing [illegible] centrifugal tendencies in the German Empire. Whatever may be the scope of its [illegible], it cannot fail to profoundly excite the Papal Hierarchy.

[illegible]

The [illegible] taxed [illegible] of any of the large cities, the tax rate for the city being $1 00. In New York it is $2 27; Brooklyn, $3 [illegible]; Chicago, $3 19.

An Oshkosh [illegible] sat down on a hornet's nest which [illegible] had just settled under the pulpit cushion. He got up again.

FINANCE AND COMMERCE.

[illegible] EVENING, August 30, 1871.

Gold in New York, 112¼.

Currency, buying, 88½; selling, 89½.

The bark *Scaldine*, loading with wheat for England, has in between 150 and 175 tons. All her cargo is purchased.

The bark *Dorenby* has nearly finished discharging. She is disengaged.

The bark *Garibaldi* is disengaged.

The bark *Queen Emma* was to have sailed from Honolulu for San Francisco, August 9th.

The following is the cargo of the *Jane A. Falkinberg*, from Honolulu (the manifest not having been received, we cannot give consignees, but the amounts of different articles are correct): 8,682 kegs, 124 bags sugar; 80 bbls molasses, 63 bags rice, 27 bags peanuts.

The San Francisco *Commercial Herald* says since the commencement of the present harvest four five vessels have been dispatched to the United Kingdom with wheat, viz:

	Centals.	Value.
Woorang, July 18	21,177	$43,100
Bowen, August 8	20,945	47,122
John Bright, August 9	40,769	93,000
Bosna, Cuyle, August 11	29,953	69,000
Lady Cairns, August 24	63,343	87,600
Total	175,672	$330,222

August 25 vessels in [illegible] 600,603 1,122,330

The following vessels are now on the berth: *Allahabad*, 1,185 tons; *Cornwallis*, 1,214 tons; *Globe*, 738 tons; *Loch Urr*, 714 tons; *North East*, 997 tons; *Norseman*, 618 tons; *Rokeby Hall*, 1,044 tons.

Reports from California state that speculators are sending agents all over the country to buy fall wool, and paying prices that advice from the East do not justify. Some of the Eastern manufacturers are sending agents to Antwerp to make purchases in that market for shipment to the Pacific States via San Francisco.

The shipments of flour from San Francisco, from July 1st, 1871, to August 25th, has been 19,115 bbls, against 14,611 bbls for the same period of time last year. Of this amount 13,037 bbls were shipped to China, against 1,793 bbls for the like period last year.

The bark *Grace Roberts*, sailed from Honolulu, with 443,000 lbs of sugar, for San Francisco, July 29th, 1871.

Owing to a scarcity of teams to convey wheat from Walla Walla to the river, the market there is glutted, and buyers are out of the market.

The regular monthly dividends of incorporated companies in San Francisco have been declared in that city, and compare as follows, for July:

	1870.	1871.
California and Pacific Banks	$ 67,500	$67,500
Gas and Water Companies	85,000	85,000
Insurance Companies	127,000	99,500
Railroad Companies	7,500	5,812
Mining Companies	113,500	253,100
Miscellaneous Companies	93,583	62,743
	$493,083	$663,655
Semi-annual dividends for Savings Banks	1,446,823	1,592,022
	$1,939,906	$2,255,877

The average production of wheat in Great Britain is 23 bushels to the acre, which gives 13,000 000 quarters, or 104,000000 bushels. The average importation for the last 15 years give 10,160,000 quarters, or 80 800,000 bushels; the exports of wheat amount to about 2,300,000 quarters. One month's supply in England is estimated at 14,000,000 bushels. The estimated stocks of wheat and flour in the principal importing ports of the United Kingdom, on the 1st of July, were 12,000,000 bushels. The amount on the way in sail vessels, exclusive of steamers from the United States and the Baltic, was 417 cargoes, aggregating 11,050,000 bushels. The harvest, it is altogether probable, has already commenced, but will hardly be general before the middle of next month.

The total production of tobacco in the United States last year was as follows:

States.	Total pounds produced.
Massachusetts	5,200,000
Connecticut	6,500,000
New York	8,500,000
New Jersey	600,000
Maryland	14,500,000
Virginia	65,000,000
North Carolina	33,500,000
Florida	500,000
Georgia	1,000,000
Kentucky	112,220,000
Tennessee	85,000,000
West Virginia	2,250,000
Kentucky	40,000,000
Missouri	18,500,000
Illinois	14,500,000
Indiana	7,000,000
Ohio	10,000,000
Michigan	3,500,000

The total number of pounds raised amounts to 378,775,000, and the value is estimated at $32,206,825. In connection with the foregoing we give the following, as taken from official sources: The collection of internal revenue from March 1st, 1869, to June 30th, 1871, in the State of Virginia, from tobacco aggregated $9,270,941 59. From June 30, 1866, to March 1, 1869 1,473,823 07

Total $10,744,765 20

Added from the above there were shipped in bond, upon which no revenue was collected, since March 1st, 1869, to June 30th, 1871, 31,303,629 pounds of manufactured tobacco. The internal revenue collected on tobacco in Virginia last week was $212,140, an increase over July, 1870, of 671 461, 81, and more than for the fiscal year of 1869. It aggregates only $174,677 03, and for the fiscal year of 1868, $191,307. These figures show a very rapid recuperation of the tobacco culture in that State.

Merchandize Report.

Ordinance No. 1,045.

AN ORDINANCE TO PROVIDE FOR THE TIME and manner of improving Grant street between Fourth and Fifth Streets.

The City of Portland does ordain as follows:

Section 1. The proposed improvement of that part of Grant street lying between the west line of South Front street and the east line of South Fourth street, shall be completed on or before the fifteenth day of October, 1871.

Section 2. The entire width of the street shall be cleared of all plank, timbers, or other obstacles or perishable materials (sidewalks, crosswalks and plank roadways of the proper width and grade excepted). If the obstructions are not removed by the owners of the adjacent lots within three days from the service of notice by the Street Commissioner, they shall be removed by and become the property of the contractor.

Sec. 3. The improvement shall consist of grading, and laying sidewalks, crosswalks and plank gutters where necessary.

Sec. 4. The work to be done and materials furnished shall correspond with the provisions of and under the restrictions contained in Section 6, 7, 8, 9, 11, and 12 of Ordinance No. 793, entitled "an ordinance in relation to the improvement of streets."

Section 5. The Contractor shall take entire charge of the work during its progress and shall be responsible for any loss or accident resulting from carelessness or neglect.

Section 6. The Committee on Streets and Public Property are hereby authorized to advertise for proposals, receive bids and enter into contract with the lowest responsible bidder or bidders for the improvement specified in this ordinance.

Section 7. The improvement shall be completed to the satisfaction of the Committee on Streets and Public Property and the Street Commissioner.

Passed the Common Council August 16, 1871.

W. S. CALDWELL,
Auditor and Clerk.

Approved August 18, 1871.

Mayor.

Ordinance No. 1046.

AN ORDINANCE TO PROVIDE FOR THE TIME and manner of improving that part of Sherman street lying between South Front and South Fourth streets.

The city of Portland does ordain as follows:

Section 1. The proposed improvement of that part of Sherman street lying between the east line of South Front street and the east line of South Fourth street, shall be completed in the manner hereinafter provided, on or before the first day of November, 1871.

Sec. 2. The surface of the street shall be cleared of all plank, timbers or other obstacles or perishable materials (sidewalks, crosswalks and plank roadways of the proper width and grade excepted). If the obstructions are not removed by the owners of the adjacent lots within three days from the service of notice by the Street Commissioner, they shall be removed by and become the property of the contractor.

Sec. 3. The improvement shall consist of grading, and laying sidewalks, crosswalks and plank gutters where necessary.

Sec. 4. The work to be done and materials furnished shall correspond with the provisions of and under the restrictions contained in Section 6, 7, 8, 9, 11 and 12 of Ordinance No. 793, entitled "an Ordinance in relation to the improvement of streets."

Sec. 5. The contractor shall take entire charge of the work during its progress, and shall be responsible for any loss or accident resulting from carelessness or neglect.

Sec. 6. The Committee on Streets and Public Property are hereby authorized to advertise for proposals, receive bids and enter into contract with the lowest responsible bidder or bidders for the improvement specified in this ordinance.

Sec. 7. The improvement shall be completed to the satisfaction of the Committee on Streets and Public Property and the Street Commissioner.

Passed the Common Council August 16, 1871.

W. S. CALDWELL,
Auditor and Clerk.

Approved August 18, 1871.
